# THE LODIS FORUM

Women who are Chairs, Vice-Chairs, Lead Directors, or Committee Chairs, a rare and transparent collective

## Letter from our Founder

Happy New Year! I hope everyone is having a great start to 2024. The Lodis Forum is making some exciting changes to our membership offerings, which we will highlight in our (new!) quarterly newsletter. We welcome all our members to share articles, book recommendations, and personal and professional successes with us. We would love to have our members help drive the newsletter's content. You can send your submissions to [Deb](#) for inclusion in future newsletters.

As you can see on [page 2](#), we continue to grow our membership at The Lodis Forum. We welcome our new members and thank everyone who has introduced potential members to us. As a token of our gratitude, we are offering to extend your current membership by one month for each referral who becomes a member. We have found that the best way to grow our ranks is through your referrals. Membership is open to women in board leadership roles such as Board Chair, Vice Chair, Lead Director, and Committee Chairs. Please send your referrals to [Meghan](#).

Finally, we will be launching a new membership networking app called Mighty Forums in Q1. This app will provide a peer exchange platform connecting our members beyond our monthly Expert Series. We will notify you via email when the app is available. Please watch your inboxes for the rollout and communications.

I look forward to continuing this incredible journey with all of you. I am deeply grateful for all you have taught me, your camaraderie, and support. Here's to more in 2024!

All the best,  
Meghan

## You're Not Powerless in the Face of Imposter Syndrome By: Keith D. Dorsey

Published in the Harvard Business Review

Many people from underrepresented backgrounds in the corporate world face imposter syndrome, or the feeling of being a fraud and doubting their skills and achievements. Women and people of color may feel like they don't belong or fit in. To overcome this, individuals need moxie, which is an intensity of motivation related to strength of will, self-discipline, and the ability to persist despite challenges. Read more [here](#) on how to make moxie your superpower.

## November Expert Series with guest speaker, Janet Zelenka

Risk management is crucial for smooth daily operations, yet many organizations struggle to effectively recognize and manage their risks.

At the November Expert Series program, Janet Zelenka, EVP, CFO, and CIO of Stericycle, a global services waste disposal and compliance company, shared her three-pronged approach when it comes to managing risk for this \$2.7 billion dollar company:

1. Know where your shareholder value lies
2. Be prepared with risk oversight plans
3. Acknowledge the gray rhinos in the room

For more on how to deal with these issues (and what gray rhinos mean), read this article from her talk with us in The Lodis Forum.

*"The thoughtful, balanced, and deeply experienced director candidates that came forward through the Lodis Forum were incredible. Though it is a double-edged sword. Our director search became much easier and our final selection so much harder because of such great candidates. Thank you, Lodis Forum."*
